# iView^{TM}: Getting Started and Requirements

Providing Remote Viewing of Data Layouts Over a Secure Internet Connection

## TOPPAN PRINTING CO., LTD
### ELECTRONICS DIVISION

TOPPAN

iView™: Overview

- iView™ is a web based interface to pattern and jobdeck viewing software resident at Toppan Photomasks, Inc.

- It provides customers the ability to view job layouts prior to manufacturing

- Data is encrypted and viewed with secure authentication

- Modern, HTML5 web-based

- Once data is available an email notification will be sent with the following information:
  - Customer, Device, and Layers
  - Listing of files available for viewing
 - Toppan Photomasks, Inc. contacts and phone numbers

- HTML 5 Browser Requirements
  - Any modern web browser (Internet Explorer, Microsoft Edge, Firefox, Google Chrome, Safari)

iView™: Login – HTML5

- Select "iView HTML5" from the main iView page

- Enter your Username and Password and select Login

iViewᵀᴹ: Getting Started

- Select your preferred viewing option

Your customer service representative can provide a guide on how to use the different viewers.

iView™: Troubleshooting Common Connection Issues

- Firewall:
  - The client computer must be able to connect to:
    - **openaccesss.photomask.com** on ports **80** and **443**
    - **iview.photomask.com** on ports **300** and **443**
